Gervasoni 1882

I. Un nuovo modo di concepire l'arredo viene raccontato attraverso un viaggio in luoghi diversi che vuole narrare l'attenta ricerca di Gervasoni nel mostrare i prodotti nei più svariati contesti: da spazi in città, a dimore affacciate sul lago o ad altre immerse nella natura più profonda, per un percorso all'insegna della versatilità e adattabilità.

E. Gervasoni's belief in displaying its products in a variety of contexts finds expression in a whole new way of envisaging furnishing, as a journey to different places: from urban spaces to lakeside residences and dwellings immersed in unspoilt nature, a journey founded on versatility and adaptability.

F. Une nouvelle façon de concevoir le mobilier se raconte au fil des pages de ce catalogue : un voyage vers différents lieux, qui vise à illustrer la recherche attentive de Gervasoni en montrant les produits dans les contextes les plus variés. Des habitats urbains à ceux des bords de lac, en passant par d'autres immergés dans la nature la plus profonde, pour un parcours placé sous le signe de la polyvalence et l'adaptabilité.

D. Eine neue Art, Möbel zu konzipieren, wird über diesen Katalog erzählt: eine Reise an verschiedene Orte, die von der eingehenden Recherche von Gervasoni beim Präsentieren der Produkte in den unterschiedlichsten Kontexten berichten möchte. Von Wohnungen in der Stadt über jene am See bis hin zu solchen mitten in der Natur, für einen Pfad im Zeichen der Vielseitigkeit und Anpassbarkeit.

The beauty of the natural fibre weave combined with an original design breathes life into a collection that is ideal for completing the décor of any room in the house, giving it character and uniqueness.

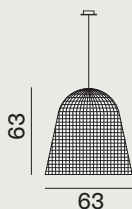

F. Grâce à sa ductilité, l'osier a permis de réinterpréter une série d'articles d'ameublement : lampes, porte-manteaux et tables basses en osier tressé à la main. La beauté du tissage en fibres naturelles associée à un design original donne vie à une collection idéale pour compléter l'ameublement de n'importe quel espace de la maison, en lui conférant caractère et unicité.

↳ Brass, Silver

I. Dal forte impatto decorativo, le collezioni Brass e Silver uniscono la duttilità dell'ottone alla sua capacità di impreziosire ogni interno grazie ai suoi riflessi luminosi. Le lampade a sospensione hanno una forma leggera di grande appeal visivo: un leggero disco di ottone che fluttua nell'aria riflettendo la luce in maniera poetica e suggestiva. Completano la collezione anche una serie di piccoli tavoli e tavolini dall'immagine scultorea e con il piano in versione ottone o alluminio, per riflessi caldi e dorati o freddi e argentei.

E. With a strong decorative impact, the Brass and Silver collections combine the ductility of brass with its ability to embellish any interior thanks to its luminous reflections. The pendant lamps have a light shape of great visual appeal: a light brass disk that floats in the air reflecting the light in a poetic and suggestive way. The collection is also completed by a series of small tables and coffee tables with a sculptural image and with the top in brass or aluminium, for warm and golden or cold and silver reflections.

F. Avec leur fort impact décoratif, les collections Brass et Silver allient la ductilité du laiton à sa capacité à embellir n'importe quel intérieur grâce à ses reflets lumineux. Les lampes à suspension présentent une forme légère au grand attrait visuel : un disque en laiton léger qui flotte dans l'air et reflète la lumière de manière poétique et suggestive. La collection est également complétée par une série de petites tables et de guéridons à l'image sculpturale et arborant un plateau en version laiton ou aluminium, pour des reflets chauds et dorés ou froids et argentés.

D. Die sehr dekorativen Kollektionen Brass und Silver verbinden die Anpassungsfähigkeit von Messing mit seiner Fähigkeit, alle Innenräume mit Lichtreflexen zu verschönern. Die Hängelampen haben eine leichte Form mit großem visuellen Charme: eine leichte Messingscheibe schwebt in der Luft und reflektiert das Licht auf poetische und stimmungsvolle Art. Die Kollektion wird von ein paar kleinen Tischen und Beistelltischen in Skulptur-Optik mit Tischfläche aus Messing oder Aluminium für warm-goldene bzw. kalt-silberne Reflexe vervollständigt.

↳ Guna Rugs

I. I tappeti Guna nascono da una lavorazione innovativa che parte da un concetto di trama e ordito dal sapore artigianale, trasportato nella perfezione e serialità dei telai industriali. Un sottilissimo filato in polipropilene, in due colori a contrasto, viene intrecciato da un telaio da maglieria di ultima generazione, e trasformato in un tappeto innovativo disponibile in due versioni, una con una texture rigata e una più decorativa, double face. Adatto sia per indoor sia per outdoor.

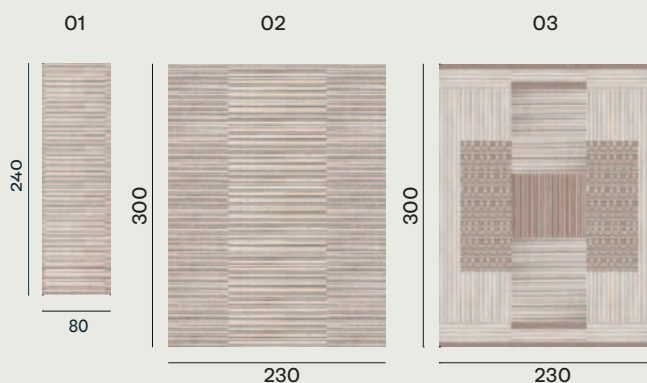

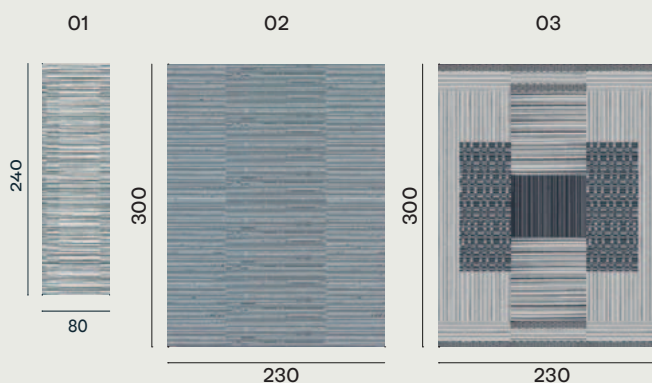

E. Guna carpets are born from an innovative process that starts from a concept of weft and warp with a handcrafted flavour, transported into the perfection and seriality of industrial looms. A very thin polypropylene yarn, in two contrasting colours, is woven by a next generation knitting loom and transformed into an innovative carpet available in two versions, one with a striped texture and a more decorative, double-faced one. Suitable for both indoor and outdoor..

F. Les tapis Guna naissent d'un processus innovant qui part d'un concept de fil de trame et de chaîne de type artisanal, transporté dans la perfection et la sérialité des métiers à tisser industriels. Un fil de polypropylène ultra fin et de deux couleurs contrastées est tissé par un métier à tricoter de dernière génération, et transformé en un tapis innovant disponible en deux versions : une arborant une texture rayée et l'autre plus décorative et double face. Convient aussi bien à l'intérieur qu'à l'extérieur.

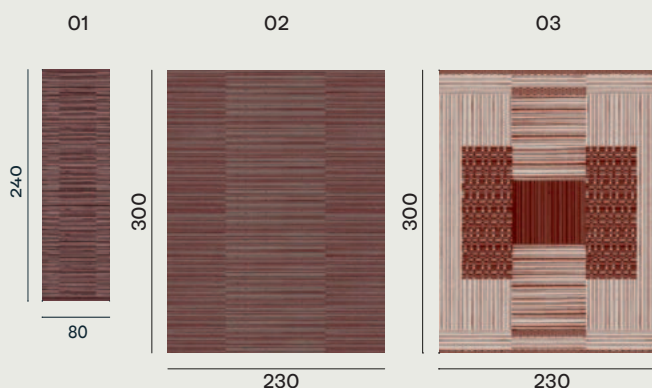

D. Die Teppiche Guna entstehen durch eine innovative Verarbeitung ausgehend von einem handwerklichen Kett-Schuss-Konzept mit der Perfektion der serienmäßigen industriellen Fertigung. Ein hauchdünnes Garn aus Polypropylen in zwei kontrastierenden Farben wird von einem Webstuhl der neuesten Generation verflochten und in einen innovativen Teppich in zwei Variationen verwandelt, einer Version mit gestreifter Textur und einer dekorativen Version zum Wenden. F. La collection Sweet se distingue par un tissage harmonieux et des courbes sinueuses. Le savoir-faire artisanal de la tradition ancienne est combiné à des matériaux contemporains, donnant ainsi vie à des sièges, des lampes et des miroirs au style captivant et qui confèrent à chaque espace intérieur une grande force expressive.

D. Harmonische Verflechtungen und üppige Formen kennzeichnen die Kollektion Sweet. Handwerk nach antiker Tradition verbindet sich mit modernen Materialien und haucht Sitzen, Lampen und Spiegeln mit ansprechendem Aussehen Leben ein, die jedem Innenbereich große Ausdrucksstärke verleihen.
