

TRIBÙ

THE ART OF LEISURE

Living the good life outside with family and friends, is the very core of our family brand. We feel privileged continuing the heritage of our father Lode and grandfather Henri, who laid the foundations of a shifting lifestyle towards a luxury outdoor living experience.

It is the life we love to live: stepping outside into the garden, taking moments to relax and reconnect, experiencing the beauty and strength of nature.

We are thrilled to create outdoor spaces that bring you the same sense of peace - with timeless designs that truly feel of nature, where every moment spent feels like a holiday.

Live it, love it, share it.

Have a wonderful outdoor year.

AMANU

YABU PUSHELBERG

Blending the beauty and durability of teak with the sophisticated charm of woven Canax® sling seats, Amanu introduces new lounging additions.

The refined Amanu collection brings interior quality outside, merging comfort and sustainability in a design that exudes purity. The dining chairs' distinct woven, hemp-based sling seats appear to float effortlessly within the sleek teak frame. Central to the new Amanu ensemble is the signature three-seat sofa with generously spacious seating. The collection's new daybed offers a refined retreat for basking in the sunlight or stargazing under the night sky. A selection of variously shaped coffee tables completes the collection, each imbued with the distinctive style of its dining table, completing outdoor settings elegantly.

FOUR SEASONS RITZ
LISBON, PORTUGAL

Architect: Openbook

The historic Four Seasons Ritz, located in the heart of Lisbon, truly embodies the cultural soul of Portugal. Outside, you can see the city's rolling hills and brightly tiled facades surrounding the pool area. The perfect place to relax after a day of sightseeing through the city or to unwind in the sun on a comfortable Senja lounge, Pavilion or Mood daybed.

In this exclusive oasis in the middle of the city, you can worship their unique sense of style of art-deco merged with an updated Louis XVI aesthetic, along with many important contemporary local artworks filling their halls. After a day of exploring the city's sights, CURA restaurant offers a seasonally inspired, Michelin-starred gastronomic experience.

Tribù was asked to create luxury outdoor furniture for the entire pool area varying from Pavilion and Mood daybeds and bar chairs, to Natal alu sofas, Senja loungers and Drops side tables. All these Tribù collections are well-depicted at the Four Seasons Ritz's outdoor space, exuding discrete luxury in the warmest colours. Perfectly fitting for the vibrant and colourful city of Lisbon.

FOUR SEASONS MEGÈVE
MEGÈVE, FRANCE

Bring together the Rothschild family heritage, a luxury hotelier and Tribù's classic Mood Club Chairs and what do you have? The Four Seasons Hotel Megève, destination of choice for the chic ski set since it opened in 2017.

A natural palette of stone, wood, lambswool and sheepskin unites the four interconnecting hotel chalets, the two-Michelin-starred restaurant and spa. Celebrated interior designer Pierre-Yves Rochon, known as 'the master of grande luxe', has made comfort the key to his gorgeously indulgent bedrooms, suites and public spaces.

Tribù's Mood Club Chairs are the perfect addition to the guest balconies, deep, cocooning seats from which to take in the spectacular snow-capped views of Mont d'Arbois. Their earth-brown woven seat backs in Tribù's exclusive Tricord material and warm teak frames are both weather resistant and highly durable. The Studio Segers design celebrates the appeal of natural textures and Tribù's technically advanced, soft-touch materials.

Guests arriving at The St. Regis Maldives Vommuli Resort by private sea plane might be struck first by the lush green of the tropical island, then by what could be the silhouette of a giant lobster and a whale shark.

Singapore-based architects WOW | Warner Wong Design have blended natural forms and traditional materials in their striking design for this five star resort. WOW is known for its culturally sensitive designs based on in-depth research into local building materials, designs and customs.

The terraces of the Villas on land and overwater are immaculately furnished with a plush Mood Daybed and Armchairs in teak and warm brown are accented by a Branch Bistro Table in wengé colour.

M/Y DRAGON, COLUMBUS CLASSI 80MT

M/Y Dragon is an exceptional new yacht from Italian firm Columbus Yachts, a Palumbo Superyachts brand.

The exterior areas, which are all different in character, were furnished using only Tribù collections for the freestanding furniture, specified by the project's interior designer Francesco Guida. "The handwoven tricord of the back of the Mood armchairs, daybeds and club chairs is in perfect harmony with the natural atmosphere I had in mind. Ultimately the classic modernity of the interiors find the perfect continuity in the exterior areas creating the "timeless relaxing atmosphere" the owner requested." – Francesco Guida.

When Dragon is anchored, additional sun-trap decks open out at the bow, furnished with Mood daybeds, Vis à Vis loungers, poufs and Ile side tables.

Across the width of the teak bridge is the 200-metre-square 'beach club'. Here, Mood bar chairs are paired with Pure sofas, Mood low tables and poufs to create a flexible, relaxed club atmosphere.

The Suro Banquette truly enhances the combination of two materials: the elegant rigor of teak wood or powder coated aluminium and the flexibility of the braided rope weaving. Both materials elegantly blend into an exceptional design. The wood and aluminium both affirm the structure of the seat. The fiber backrest, as if hanging from the seat, forms an embracing cocoon-like flower petal which provides unique comfort thanks to its roundness.

The airy design of the Mood collection and its warm combination of teak and handwoven backs will immediately create an intimate atmosphere on your patio. The rounded design of the durable teak gives the sofa a warm and friendly tone. The weave in Tricord has a very soft touch, but can nevertheless defy all weather conditions. Tribù has developed a range of natural colours that fit in with any type of outdoor environment. The comfortable outdoor cushions can be left out in the rain, thanks to the ventilating, water-repellent filling. The back cushions are available in various styles to match every taste.

TOSCA

MONICA ARMANI

P. 105, 106-107

The Tosca outdoor sofa is simultaneously warm and inviting, stylish and intriguing. It was the first time TRIBÙ called upon a female designer to draw an outdoor furniture piece and that is evident in the design. Rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative : foam mousse is encased in a seamless sheath of knitted textile and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch. The seating comfort is especially pleasant, thanks to the comfortable outdoor cushions.

CTR

PIERGIORGIO CAZZANIGA

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the sofa is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspended above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back. The seat is upholstered with a water-repellent cushion which can be easily removed.

The modular Nodi sofa has a strong personality, yet it sits easily in an outdoor space without dominating it. The frame has an airiness and architectural appeal thanks to its curve, grace and open weaving. The extra-soft cushion filling makes Nodi one of the most comfortable outdoor sofas, as well as one of the most flexible. With three seating elements and four seat depths you can create your own personal sofa.

P. 49, 54-55, 95, 96-97, 98-99, 139

Slender, teak platforms support comfortable outdoor cushions without any visible back or arm structure. Tribù uses only the very best plantation wood from East-Java. Every log is handpicked during the cutting process of the tree. The cushions are supported by brackets in stainless steel 304L and can be left outside, even in the rain. The ventilating filling is covered with a waterproof, laminated polypropylene cover which is water resistant. All stitches have an extra inside cover to prevent water from penetrating. The simple, modular system allows for endless compositions from a small meridienn sofa to a large corner sofa with side tables.

STUDIO SEGERS

P. 58, 60-61, 64-65, 92, 171

At first glance, the LUCCA collection feels familiar. Then dive deep, and subtle design details emerge. LUCCA's lounge chair features a graceful silhouette inspired by Japanese calligraphy, with curved armrests offering a gentle embrace. But it is its woven backrest that takes centre stage, paying tribute to Southern braiding techniques. The weather-resistant EPDM foam encased in broad waves of knitted Canax® discreetly hide the aluminium frame from the back, offering the chair an airy feel. Its soft fibre core provides gentle stretch, enhancing comfort while sinking into the cushions.

PIERGIORGIO CAZZANIGA

P. 138-139, 140-141

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the chair is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspended above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back.

Multiple soft shades of yarn are woven into one strand, which mimics the hues of natural light and makes each chair unique. The handwoven seat in weather-resistant Tricord rope, draws inward to create a warm, intimate cocoon effect. The chair, perfect for relaxed dining, is framed by natural teak, which supports the seating shell primarily through the back legs that cross the shell.

CTR

PIERGIORGIO CAZZANIGA

P. 135, 132-143

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the chair is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspended above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back. The seat is upholstered with a water-repellent cushion which can be easily removed.

BRANCH

LIEVORE ALTHERR MOLINA

P. 145, 148-149

Inspired by tree branches, the Branch outdoor chair looks fluid and organic. Behind the airy, slimline appearance lies a sophisticated design and well-thought-out materials. The aluminium die-cast frame is powder-coated with a double layer for a superior scratch and uv-resistance. The seat and back are made of polypropylene, reinforced with fibre glass. The seating comfort of the garden chair is extraordinary thanks to the anatomic resilience of the back. Aluminium and polypropylene are excellent outdoor materials, easy to clean, weather-resistant and 100% recyclable. The Branch garden chair is available with armrests or without and is stackable for easy storage.

TOSCA

MONICA ARMANI

P. 110-111, 114-115

The Tosca outdoor collection is simultaneously warm and inviting, stylish and intriguing. It was the first time Tribù called upon a female designer to draw an outdoor furniture piece with a more feminine touch. Monica Armani succeeded in her challenge: rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative: foam mousse is encased in a seamless sheath of knitted textile and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch.

TOSCA COUNTER HEIGHT

MONICA ARMANI

The Tosca counter-height chair is a perfect fit for a pool-house kitchen counter. Or pair it with the Illum counter-height table, which is 13cm lower than a regular bar table for poolside cocktails. The chair's elegant seating shell in powder coated stainless steel is upholstered with an extra- large, vertical weave, developed exclusively by Tribù. A great deal of research resulted in a unique product with a natural and soft appearance, that is nevertheless 100% weatherproof and stain-repellent.

BRANCH SIDE

LIEVORE ALTHERR MOLINA

P. 145, 148-149

Inspired by the branches of a tree, the Branch collection has a sleek, organic look. The idea behind the collection was to design a chair that blends in completely with nature and optimally resists all weather conditions. Behind the slender appearance lies a sophisticated design and a well-considered choice for durable, easy-to-maintain, recyclable materials. The technique of high-pressure injection gives the aluminum frame a firm stability and the resilience of the polypropylene backs ensures excellent seating comfort. Otto was inspired by a rhythmic 'ribbon' pattern, often found in Italian bar counters from the '40s. The collection also refers to ancient architectural pillars with their typical fluted pattern. Using merely one simple element, an endless yet interesting surface can be created. Wich not only significantly reducing the waste of precious teak, but creates a durable timeless design that accommodates many outdoor purposes.
